

ABOUT ME

Dear Friend, My name is Angelika and my passion is to hand-paint the most iconic animated characters on clothes. I've been painting since I was a child and it's become my hobby. Growing up, cartoons were a way for me to escape to a world of absurdity and imagination, a world of creations are bringing to life. If you want to stand out from the crowd and bring animation to life or simply create a custom gift to someone you love - you're in the right place! Bring your memories back with the bright ideas from your childhood with vibrant, cartoon-inspired clothing paints ❤️

SHOP NOW

MANUFACTURING

Not only the passion for cartoon painted clothes, but also the possibility to create exceptional sketches and go the extra mile for each customer makes it worth the effort. I'm light-hearted and playful by nature so it reflects onto my art. Every painting is unique. I love to spend hours and hours designing and creating. With the use of fabric acrylic paintings which save the colour from washing off, I also use 100% organic cotton t-shirts 🌱 which are not only high-quality, but also very comfortable to wear. Every single item is packed in a hand-crafted wrapping paper with a unique serial number and shipped right across to you.
